
POLICY: Environmental

Supercivil is responsible for the effective delivery of a large range of industry services and is committed to providing a workplace that is safe for its employees and the environment.

Due to the nature and geographical spread of our business we are in a strong position to influence environmental best practice and to demonstrate our good environmental stewardship and social responsibility.

This Environmental Policy Statement covers Supercivil operations throughout Australia and will be communicated to all staff and available to the public.

Supercivil will continually improve its business performance and conduct its operations in an environmentally responsible manner, clearly reflecting a commitment to fostering the sustainable use of the Earth's resources.

Supercivil will also implement and maintain an Environmental Management System to ISO14001.

We will:

- Comply with all relevant environmental legislation and regulations
- Incorporate environmental best practice into our core business plans and management processes
- Minimise any negative impact which we may have on the environment through efficient use of resources and reduction in emissions and waste
- Develop a company-wide framework for setting and reviewing our environmental objectives and targets. This will include key environmental management and performance indicators against all Supercivil operations
- Provide regular monitoring and reporting against these indicators to all staff
- Incorporate environmental best practice into all technological solutions and the fit-out and operation of accommodation
- Ensure we work closely with our clients, suppliers, contractors and other interested parties to continually improve our processes in environmental best practice
- Foster the initiation and ownership of environmental activities of all our staff, thereby creating a strong, environmentally aware, business culture.
